Let's win Gold in Olympics

As I maneuvered my car through busy roads, a thought crossed my mind, "I can win Gold in the Olympics, I am already competing in the Olympics for the company's survival in a competitive global marketplace. It is a Global event; every country is fighting hard to win significant business market share in its segment.

TECHNOLOGY & GENERATIVE AI in Education

University Grant Commission (UGC) has already permitted top ranked universities to offer online programs and expanded the scope of the Open University. For regular programs, UGC has also permitted up to 40% credit that can be earned through online courses subject to the norms and approval of the university where the student is studying.

THE GROWTH OF THE INDIAN SPACE ECONOMY

Now Listen to Full Article

Private players from countries with high-cost structures may increasingly outsource components or entire projects to India. This trend fosters a more interconnected global space economy, wherein Indian companies act as both competitors and enablers. India's advancements encourage startups worldwide to innovate and adapt. For example, as India's small satellite industry grows, startups are exploring complementary technologies like advanced propulsion systems or AI-driven satellite analytics.

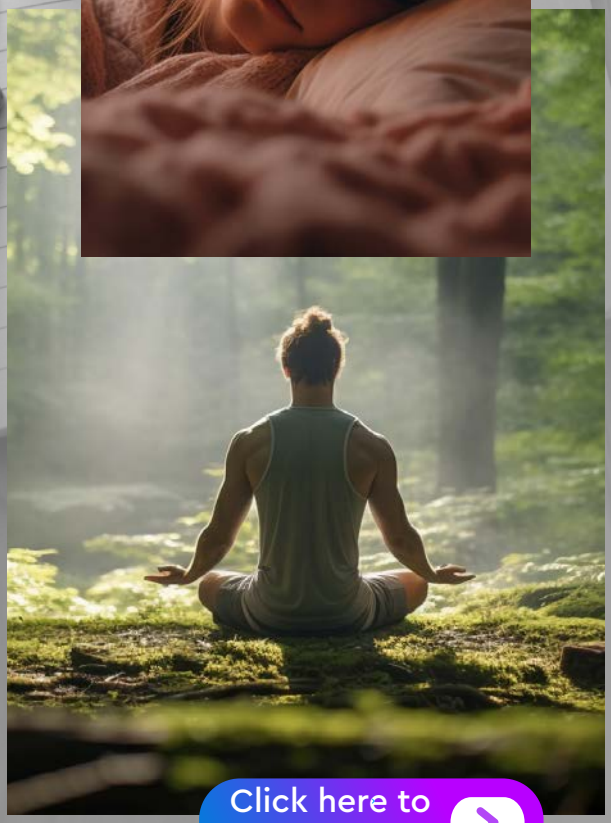
Unlock Your Potential

MANIFESTING SUCCESS WITH AFFIRMATIONS



First, you need to use your willpower to create affirmations that include the right ingredients, leading to the outcomes you desire. Second, it's essential to follow the correct formula to craft affirmations that produce results. Think of it like preparing a delicious meal using the ingredients you have in your kitchen.

SMART PRODUCTIVITY

NAVIGATING WORK AND LIFE IN 2025

Now Listen to Full Article

2024 saw some big companies asking their employees to return to the office. Companies are divided on this aspect, but according to Flex Index data, two-thirds of 13000 companies in the US have moved to a flexible work schedule. Based on ADP's People at Work 2023 report, India leads the APAC countries in flexible work models, with 44% Indians having full work flexibility.
